

## Access Management, Location and Design

November 30 to  
December 2, 2004 (#679)

Shoreline Conference Center, Cromwell Room  
18560 First Avenue N.E., Shoreline, WA 98155  
(206) 368-4776

(The phone number shown above is to be used in case of emergency to contact a student in the class.)

**Cost: \$400**

**Hours: 8:00 am to 5:00 pm**

**Class Size: 30**

**Instructors: Frank J. Koepke and Vergil G. Stover**

**Target Audience:** This course is for federal, state and local planners and engineers who are currently involved or expect to be involved in decisions on, and/or design of, access to existing or new sites.

**Course Description:** This is a WSDOT training class that is available for local agency attendance. The class can take 14 local agency and 16 WSDOT attendees. See note below for WSDOT employees.

This National Highway Institute course covers access management along streets and highways. General benefits, as well as the social, economic, political and legal implications of access control are examined. Existing access management practices and policies from states and jurisdictions are used as examples of what types of programs have been implemented and how effective they have been. Through in-depth discussion, access management techniques and the warrants for their use are reviewed. Guidelines for design and application of these access management techniques are described in detail. Strategies for developing and implementing retrofit programs to improve existing access control are presented. The course presents several "before" and "after" case studies, which show the impacts of retrofit programs on local businesses. Techniques and procedures for evaluating the impacts of access control on the safety and operations of the highway system are also covered.

**Objectives:** Upon completion of the course, participants will be able to:

- Recognize the various elements involved in planning, developing, implementing, and administering an effective access management program.
- Assess the safety and operational impacts of alternative access management techniques.
- Demonstrate convincingly the merits of obtaining and maintaining good access management along streets and highways.

**Note to WSDOT Employees:** If you want to attend this class, you must register in ATMS (CPP, #1101) or contact Staff Development. Their number is (360) 705- 7062.

**Questions?** Contact Laurel Gray at (360) 705-7355 or [GrayL@wsdot.wa.gov](mailto:GrayL@wsdot.wa.gov)

**Registration:** You can register on-line using this link: [On-line Registration Form](#). Fill in your information\*, select your class from the list, then press "Submit." You will receive an e-mail notification with driving directions to the training site when we process your request. **If you do not receive this e-mail notification within a day, you may not be registered and should contact the WST2 Center by phone.**

Please do not prepay, an invoice will be mailed to you after the class. Confirmation letters are mailed three weeks prior to the class. If you are unable to attend, someone else from your agency may attend in your place. To cancel your registration, or for assistance with registration, e-mail [wst2center@wsdot.wa.gov](mailto:wst2center@wsdot.wa.gov) or [schmidw@wsdot.wa.gov](mailto:schmidw@wsdot.wa.gov) or phone (360) 705-7386.

\* A "unique identifier" is now required when registering on-line. You might use the four digits of your phone number, your birthstone, birth date, child's name, pet name, etc., but please make it something you will remember. Our computer matches your last name with this identifier to automatically and quickly register you into a class.
